 FORM BUSINESS MEETING

Leigh. We conducted a meeting to discuss the impact of the human resource on the company's performance. The meeting was held at a conference room on October 14, 1994, at 7:30 p.m., during the annual meeting of the company. The meeting was led by Brian (Chairman of the Board) and attended by the company's top executives.

The meeting covered several important topics, including:

1. The current business environment and future challenges
2. The company's financial performance
3. The implementation of new technologies
4. The role of management in improving the company's efficiency
5. The need for better communication between departments
6. The importance of maintaining a positive company culture

The meeting was well-attended, and all participants were encouraged to provide their input and suggestions. The meeting concluded with a review of the action items and a commitment to take the necessary steps to address the identified challenges.

The next meeting is scheduled for November 20, 1994, at 8:00 a.m., and will be held at the company's headquarters.

FIRST FORUM DISCUSSION PRIZE

By Mitchell Agh and Paul Crock

The Forum awarded its first prize for the best dissertation in the field of science writing to John Carson (University of Florida), for his dissertation on the history of the human sciences. Carson's work was described as a "collision of ideas and minds," and the prize was a testament to the importance of science writing in the 21st century.

4. OTHER BUSINESS

Presentation of the Forum's annual award for distinguished service to science writing was given to Lawrence M. Slobodkin (Smith College) for his "Outstanding Contribution to Science Writing." Slobodkin's work was described as "an important contribution to the field of science writing," and his influence was felt throughout the profession.

The Forum also announced the appointment of a new editor, Emily A. Thompson, who will be responsible for overseeing the publication of the Forum's journal. Thompson's appointment was described as a "significant step forward for the Forum," and her experience and expertise were seen as crucial for the forum's future success.

The Forum also announced the launch of a new program, the "Forum Fellows," which will provide opportunities for early-career scientists to engage with the public and the media. The program was described as "an important step forward for science communication," and its launch was seen as a "significant milestone for the Forum."

HSS PANEL PROPOSAL

If you are interested in the history of science and technology, please consider participating in the History of Science Society's annual meeting, which will be held from October 26th to November 1st, 2023, at the University of California, Berkeley. The meeting will feature a range of sessions, including talks on the history of science, technology, and medicine, as well as discussions on the role of scientists in society. To participate, please submit a proposal by May 1st, 2023, via the HSS website. The meeting will conclude with a banquet on Saturday evening, providing an opportunity to network and socialize with other historians. We look forward to seeing you there!
Aho! I've received your submission about your experiences with the History of Science Society (HSS). It's great to hear about your interactions and the discussions you've had with members of the HSS.

It seems like you're passionate about science communication and education. Your experiences with the Society's events and networking opportunities sound exciting. Keep up the good work! I'm happy to support your endeavors and provide any assistance you may need in the future.

Best regards,
